

# Festive Fundraising

Help us to turn your festive drinking  
in to tap water for two Nepalese communities

**The amount needed is £33,000**

There are 226 people needing access to clean tap water  
That's just £146 per person.

The communities will provide access to land  
and the unskilled labour themselves.

- A plan has been completed.
- There is no other funding available.
- They need to buy the tools, equipment and fund transportation.
- The project is likely to take them 2 years to complete and with water supplies being very unreliable they want to start now.
- Adults generally earn less £1,000 a year.

## You can help in two ways

1. By putting aside a donation for every bottle you drink between now and January 1<sup>st</sup> and sending it to us
2. Sending this flyer to as many people as you can and getting them to join in

**If you would like to donate please contact**

Since the earthquakes in 2015 we have helped fund the rebuilding of 3 of the 16 homes that needed to be rebuilt, reroofed 13 homes, put toilets into the school and helped to set up a Women's Project around health, providing income and education for women.

**If you wish to see the project proposal which has all the detail of the work planned and the costs, we are happy to forward that to you.**
